

Washing the hand is the plan.

They call us **PINWORMS**, and we'll give you the itch.

I'm the most common cause of infant diarrhea. I'm **ROTAVIRUS**.

I'm the way to **HEPATITIS A**.

Hey, you know me, I'm the **COMMON COLD**.

INFLUENZA is my name; fever and aches are my game.

A shake of the hand, a touch to the eye... that's how I plan to give you **PINK EYE**.

I parasitize your gut. I'm **GIARDIA**.

I'm **SALMONELLA** and I lurk on raw eggs, chicken and meat!

E. COLI is on the loose when handwashing is forgotten after bathroom use.

I'll give you a sore throat or my name isn't **STREPTOCOCCUS**.

Just a few like me can cause a "mean" diarrhea disease. I'm **SHIGELLA**.

I find wounds to infect and make them turn green like me. I'm **PSEUDOMONAS**.

Stop Germs!

- Wash your hands often.
- Wash your hands before eating.
- Wash hands after using the bathroom.
- Wash hands before and after preparing food.
- Wash hands after changing diapers.
