

## Public Health Update - H1N1 Influenza

September 1, 2009

As of Friday, August 28, 2009, the Southern Nevada Health District reports the following information regarding novel H1N1 case counts in Clark County:

Week Ending	Confirmed	Cumulative Cases
August 28	12	306
August 21	15	294
August 14	25	279
August 7	23	254
July 31	21	231
July 24	49	210
July 17	16	161
July 10	16	145

**Clark County H1N1-related deaths to date: 10\***

The health district received confirmation of two additional H1N1-related deaths. The patients were a 41-year-old woman and a 51-year-old man, both of whom had underlying medical conditions. Two patients remain hospitalized with severe illness. The Southern Nevada Health District continues to receive samples from its pediatric surveillance program.

-30-

*\*This number represents Clark County residents only. In early June, the health district reported the death of a hospitalized patient who was a resident of another state.*
