

Public Health Update - H1N1 Influenza

September 22, 2009

As of Friday, September 18, 2009, the Southern Nevada Health District reports the following information regarding novel H1N1 case counts in Clark County:

Week Ending	Confirmed	Cumulative Cases
September 18	27	393
September 11	29	366
September 4	31	337
August 28	12	306
August 21	15	294
August 14	25	279
August 7	23	254
July 31	21	231
July 24	49	210
July 17	16	161
July 10	16	145

Clark County H1N1-related deaths to date: 11*

The health district is not reporting any deaths for the week ending September 18. Currently, there are no patients reported hospitalized with severe illness. The Southern Nevada Health District continues to receive samples from its pediatric surveillance program.

-30-

**This number represents Clark County residents only. In early June, the health district reported the death of a hospitalized patient who was a resident of another state.*
