SIZE:

This facility, as proposed, will consist of approximately 22,000 square feet (all interior). The maximum storage capacity is approximately 360 cubic yards. The maximum processing rate is approximately 150 cubic yards per day.

OPERATIONS:

This facility is seeking a permit from Southern Nevada Health District (SNHD) to operate a recycling center. A recycling center is a facility designed and operated to collect, store, or process only recyclable materials which have been separated at the source of waste generation from other solid waste and which will eventually be shipped to others who will use those materials to manufacture new products. This facility will accept paper (all types), pallets/wood and E-wastes (hard drives, microfilm, microfiche film, and x-ray film). This facility will operate Monday – Sunday, up to 24 hours per day. Operations will take place indoors and there will be no outdoor storage of recyclable materials. The facility will be open to the public Monday - Friday, between the hours of 6:00 a.m. and 7p.m.
