

**dSNHD-9-RFP-17-001  
ADDENDUM A03**

---

**REQUEST FOR PROPOSALS (RFP) No.:** SNHD-9-RFP-17-001

**TITLE:** PRINTER/COPIER LEASE, REGULAR AND PREVENTATIVE MAINTENANCE, AND SUPPLIES

**ADDENDUM ISSUE DATE:** November 3, 2016

**CLOSING DATE & TIME:** ON OR BEFORE 4:00 p.m. PT November 28, 2016

---

**Information for Proposers**

The following information is provided to answer questions raised by potential proposers.  
This Addendum #A03 contains 10 pages in total.

1. Do you have Citrix -Citrix means they can log into any PC or laptop in the facility with credentials and print to nearby printer? Many of the kiosk style PCs are configured to tie applications together like your EMR, so when you authenticate you can start working without having to launch various applications - eliminating the need for “follow me print” because you have follow me computing. **No**
2. What EMR/EHR are you running and what version? **We currently use WebIZ, a product from Envision Technology Partners. We are in the process of implementing eClinicalWorks EMR. This should be implemented in approximately 18 months.**
3. Do you have a Print server environment currently? **Yes**
4. Do you currently use badges, what kind and are they tied in addition to AD, to departments etc.? **We use RFID badge technology (HID cards with H10301 format) which is also used to limit departmental access. Badges are tied to a standalone system, and not Active Directory.**
5. Do you provide mobility solutions to your staff and users that are managed or is it BYOD? In either case what security provisions are in place to ensure users have credentialed tracked access to various applications, as well as printing capabilities? **We provide a variety of mobile solutions. Inherent with secured (encrypted) WiFi print capability is AD authentication and a print server. A secured guest WiFi network also exists for BYOD but we do not allow printing.**
6. **Production –**
  - a. What type of binding are you asking for? **Comb binding, usually with a clear plastic front cover and heavy blue plastic back cover.**

- b. Can you be more specific on the Booklet finisher/system? Number of sheets/pages, trimming, media that is normally used. [Varies from job to job, could be saddle-stitched stapled, color or black & white](#)
  - c. What do you consider as heavy paper? [65 lb](#)
  - d. What is the role of this part time worker? Is it for only one location or all? Are you also asking for pricing for print shop personnel? [Please see Addendum A02 for responses to part-time worker. We are not looking for pricing for print shop personnel.](#)
  - e. Volumes – are these monthly as some of the data does not seem right. For instance, one printer is showing 53K/month and some color printers are showing zero color volume. [Attached to this Addendum A03 is a revised SNHD Printer average clicks.](#)
  - f. Are you currently outsourcing any print work? [Yes](#) If so, is it due to:
    - o Finishing - [Yes](#)
    - o Size - [Yes](#)
    - o Quality - [No](#)
    - o Capacity - [No](#)
    - o Expertise of print shop workers - [Yes](#)
    - o Volumes - [Yes](#)
    - o Price - [No](#)
7. Requirements were changed to 55ppm on Multifunction specifications in Addendum 1, yet the addendum answers say 55ppm B&W and 40ppm color for Multifunction devices (As per A01 #23c). Is a 40ppm Multifunction color device allowed? [As a minimum, yes.](#)
